P.06/13

Appl. No. 09/837,020 Amdt. Dated February 20, 2006

Amendments to the Claims:

This listing will replace all prior versions, and listings, of claims in the application:

Listing of Claims:

Claim 1 (currently amended): A method of preventing defective germination or growth of a plant comprising the steps of:

encapsulating at least one plant seed of a light germinator in an aqueous gel capsule having a moisture content of at least 90% by weight, the at least one plat seed having a size of 1 mm or less; eapsule;

refrigerating the at least one plant seed <u>under one of a humidifying condition or in an airtight</u>

<u>container so that moisture is not lost from the aqueous gel capsule and under the condition that the at</u>

least one plant seed does not germinate; and

sowing the at least one plant seed.

Claim 2 (Canceled):

Claim 3 (Original): The method of preventing defective germination or growth of a plant according to claim 1, wherein the refrigeration is carried out in a dark place.

P.07/13

Appl. No. 09/837,020 Amdt. Dated February 20, 2006

Claims 4-6 (Canceled):

Claim 7 (Previously presented): The method of preventing defective germination or growth of a

plant as claimed in claim 1, wherein the at least one plant seed encapsulated in an aqueous gel

capsule is a pelletized seed.

Claim 8-12 (Canceled):

Claim 13 (Previously presented): The method of preventing defective germination or growth of a

plant according to claim 1, wherein the step of refrigerating the at least one encapsulated plant seed

is conducted at a temperature of about 15°C or lower and for a sufficient period of time to improve

the germination of the at least one encapsulated plant seed as compared to non-refrigerated

encapsulated plant seeds.

Claim 14 (New): The method of preventing defective germination or growth of a plant according to

claim 1, wherein refrigerating step is conducted in an airtight container.

Claim 15 (New): The method of preventing defective germination or growth of a plant according to

claim 1, wherein the at least one plant seed comprises a seed of at least one of Eustoma russellianum,
